SUMMARY

Web developer at Zivtech, a Philadelphia digital agency specializing in Drupal and open-source web development. I build and maintain client sites with PHP, Drupal and MySQL and keep them secure, accessible and up to date. Background in JavaScript, React and Node, with a degree in Information Science and Technology from Penn State focused on user interfaces.

EXPERIENCE

Developer

Mar 2022 – Present

Zivtech · Philadelphia, PA

- Build and maintain Drupal 10 and 11 sites for healthcare and higher-education clients.
- Keep Drupal core and contributed modules current with Composer, including security releases, patches and update hooks.
- Deploy and support sites on Pantheon and Acquia, with local environments in Lando.
- Test for WCAG 2.2 AA accessibility and check changes with Playwright browser tests and visual regression testing.

Mental Health Worker – Team Lead

Oct 2011 – Mar 2022

Gemma Services

- Promoted from part-time to full-time lead staff for exceeding goals and strong communication.
- Worked with cross-department teams to build treatment plans that led to successful discharges.

Field Technician

Jun 2007 – Jun 2010

Comcast

- Reduced the order backlog by completing complex jobs and resolved a high volume of service tickets.

PROJECTS

Snake

JavaScript, Canvas, Firebase

A modern take on the classic game: smooth movement, rising difficulty, obstacle waves, an online Firebase leaderboard and a two-player mode. yujiman85.github.io/snake

You Got This

HTML, CSS, JavaScript

A single page that shows a random affirmation on each visit, with no-repeat logic and screen-reader-friendly markup. yujiman85.github.io/you-got-this
